Be Aware of Surroundings

Over this past week, we had 4 robberies that included taking of purses either when the victims were at an ATM, walking down the street, or getting out of the car to go into a store. All occurred at different times throughout the day, one during the morning and one just after midnight. Here are some things to keep in mind to keep ourselves safe:

- Walk with confidence and purpose. Keep your head up.
- Scan your surroundings as you are standing at an ATM, getting out of or going to your car, walking down the street
- Stay in well lit areas. Avoid doorways, shrubbery and remote places.
- Try to stay in pairs.
- If someone approaches or is following you, cross the street, change directions. Look for a safe place to go.

For more information on personal safety go to www.kentwa.gov/police

Talk To Your Kids:

Did you know that parents are the number one influence over kids when it comes to them choosing to not use drugs and alcohol? It is important to start an on-going conversation with them. Teens believe they have valuable things to say and, when a parent listens genuinely, it helps self-esteem and confidence. **The most important thing to remember when it comes to talking about difficult subjects like drinking and drugs is that it's not a five-minute "talk"** — it's about building an ongoing dialogue. As your children grow up, they will need more and more information, so start early and build on the conversation as your teen matures. For more information on this and other topics to discuss with your teen go to:

Are you documenting your valuables?

Jewelry, TV's, Playstations, laptops and other valuables are among the items stolen during residential burglaries this past week. It is important that we do everything we can to secure the outside of our homes and be aware of what is happening in our neighborhood and calling 9-1-1 every time we see something suspicious, but it's also important that we document the serial numbers of our electronics and take pictures of valuable items such as jewelry. If possible, store valuable items in a safe, along with any written documentation of serial numbers and pictures. The following are resources available to document your serial numbers:
